CHANGES IN INDUSTRY TITLES

A few changes have been made in the industry titles for 1925, as compared with 1923, these changes having been made, in most cases, because of consolidations. The only industries whose present titles are alphabetized differently from the former ones are Tanning materials and natural dyestuffs, formerly Dyestuffs and tanning materials, and Tin cans and other tinware, not elsewhere classified, formerly Tinware, not elsewhere classified. The present title of the Tanning materials and natural dyestuffs industry was used in the 1923 report.
